Dear Madam/Sir,

We are pleased to invite you to the **28th International Exhibition for Track Technology (iaf) in Münster**. The iaf will take place from **31st May to 2nd June 2022** at the Messe und Congress Centrum Halle Münsterland. It is one of the world's largest trade fairs which covers the latest news in regards to machines, equipment, construction technologies and trends in the railway sector.

The **SmartDigital-Group** can be found at the **Plasser & Theurer** stand as DRUM (Dynamic Rail Utilities Monitoring) in the southern hall. Guests will have the chance to learn about the newest developments in regards to the digitalisation in the railway sector. Additionally **InfraScore** – the new asset management platform – will be presented. Our experts on site will be happy to answer your questions in regards to the digitalisation of the railway sector and to inform you about all important developments.

The subsidiary **EuroDragons** can be found in the outdoor area of the southern hall, presenting its UAS (Unmanned Aircraft System) Ketos and providing impressive insights into the technical side of BVLOS (Beyond Visual Line of Sight). A virtual flight simulation will demonstrate visitors the beauty of UAS-flights.
