

Airborne extended track digitization Visit us at InnoTrans 2022!

Save the Date:
20th – 23rd September, Berlin

The **SmartDigital Group** is pleased to invite you to **InnoTrans 2022**, the world's leading international trade fair for railway technology. InnoTrans features state-of-the-art technologies from the fields of railway engineering, railway infrastructure, public transport, interiors and tunnel construction at the **Berlin Exhibition Grounds**. On the open-air track area, visitors can get to know the latest innovations on 3,500 running meters.

Visit us at two booths at once:

Atos & SmartDigital Group: Hall 4.1, Booth 750

Meet our experts and learn about the next generation of:

- Service delivery platform ARCA@
- Asset management platform InfraScore
- Infrastructure and terrain visualization
- Asset recognition & condition monitoring
- Incident recognition

DRSA & SmartDigital Group: Hall 26, Booth 150

As part of the innovative Digital Railway Solutions Alliance, our experts will elaborate on the benefits of:

- Integrated Sensor Technology Solutions
- 3D+ Infrastructure Data Solutions
- End-2-End Asset Data Management
- AI-Based Predictive Infrastructure Management
- Automated Services for Trackside Safety

Highlight: Get a closer look at SmartDigital's cutting-edge UAS (Unmanned Aircraft System) Ketos.

The **SmartDigital Group** presents the latest developments in **BVLOS UAS** (Beyond Visual Line of Sight Unmanned Aircraft Systems), its unique as-a-service platform **ARCA@** and the highly customizable asset management system **InfraScore**. To ensure a modern, high-performance infrastructure and a smoothly operating rail network, regular inspections are necessary. Precision UAS with a variety of high-performance sensors can support this with precise data from the air. The areas of application cover a wide range from route planning, construction progress control, inventory or condition control to use in emergencies or natural disasters. The data obtained is processed and stored on ARCA@ and processed with the support of artificial intelligence. InfraScore enables customers to manage their data easily and transparently.
